

UTAH WOODCHIPS

Message from the President

February - 2006

- Wow!! What a year that was. The club is getting new members and we had lots of fun. We are looking forward to 2006 being another banner year for us. We are tentatively scheduling some terrific turners for us this year...keep you posted. We are also thinking of doing another Super Saturday turning, if there is enough interest. The club is in great financial shape and going strong. Keep up your support and thanks for all you do
- Leonard Cleveland was our guest demonstrator for us at MacBeath's Hardwood. He did a super job and is a very good turner and teacher. He showed us a number of his turnings and taught us how to make a really neat Witch and Mas-sager. Thanks again...
- We are privileged to again have Mike Mahoney, who is one the premier Woodturners in the world do our club demonstration for February. He is an excellent instructor and turner. We look forward to this event at Timberline in Orem. You won't want to miss it
- The Third Thursday training at Woodcraft's new location, was on the basics of woodturning. We had the largest crowd ever for this "101" class. There were more that 50 people in attendance including ten new people that are joining the club
- The "101" training in February will cover two areas: the much requested demonstration of proper tool sharpening which we do three to four times per year (until you get it) and we will also be discussing and doing a "hands-on" demonstration of the proper techniques of making beads, coves and fillets
- Plan for the Utah Woodturners Symposium, June 15th through 17th. It is a don't miss event...tickets are now on sale. Only 450 ticket holders will be let in this year...

Regular Monthly Meeting (first Tuesday)

Feb 7th Mike Mahoney

Timberline Woodworking

2 blks W I-15 on Center St - Orem

Mar 7th Bruce Bassett

MacBeath Hardwood

1576 S 300 W - SLC

Apr 4th Bob Carter

Ogden Area

2005 Utah Woodturners Symposium CD is now available

We also have CD's back to 1999

The CD is **compatible** with PC and Mac

Cost \$35.00 each and includes shipping

If you would like to buy a CD at the club meeting, they are available for \$30.00 by saving shipping costs

Note: 2006 Symposium Jun 15 - 17
Tickets now available at:
utahwoodturning.com

Leonard Cleveland on turning a Witch

We were glad to have Leonard turn for us again. One of the projects in which Leonard excels, is making a lighthouse "montage". While they take a lot of work, he has made and sold a number of these and they really looked great.

For the club demo, he showed us how to make a three part Witch out of different kinds of wood. He started with a block of wood about three inches by six inches of a medium colored wood. He turned it to a high hour-glass shape and then put a "mortise" on the top to hold the head.

Next, the head is turned from a lighter colored wood. This is oval shaped and has a small "tenon" on the top and bottom to fit to the body and hat.

Leonard then uses a dark colored wood to make the hat. He then turns a "mortise" in the bottom of the hat to fit on the head.

All the pieces are sanded, finished and joined together to make a very impressive finished product.

He also took a few minutes to show us how to make a small hand-held "back" and "body" massager. It is very simple to make and is amazingly effective. I would recommend everyone make and use one. Good job Leonard...and thanks !!
