

UTAH WOODCHIPS

Our June 1, 2004 meeting was held at Craft Supplies USA.

Stuart Mortimer from England demonstrated spiral forms.

Marking and drawing the spirals is shown in the pictures at right. Then he cuts in with a back saw. The older method was then to cut along the saw kerf with a gouge while turning the piece by hand.

Another way is to use a round micro-plane, but his preferred method now is to use an Arbotech Carver (see picture page 2).

Stuart covered so many things in his presentation, I don't know how to get it into a newsletter but there is hope Randy Peterson is going to produce some Video CD's of several past meetings. They will be available soon. Maybe we can get the rest of the details there.

We will let you know more about this.

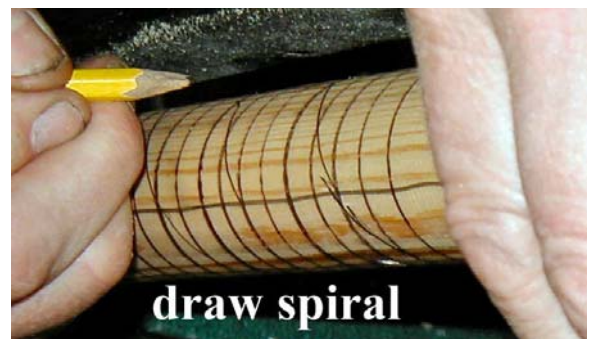

Thanks again to Stuart Mortimer for his great presentation.

Message from the President - July - 2004

If you were not at the “club picnic” in June...you flat out “blew it”. Stuart Mortimer put on a terrific demonstration. He showed us a number of different methods of doing “twists” on spindle, hollow forms and goblets. It was absolutely amazing just to watch.

The “hot” food was great, thanks to Craft Supplies and the various pot-luck items brought by the members. A big thanks to everyone who helped. Everything came off mostly on time, even though we had to deal with traffic from a major wreck on I-15 to get there from the north.

The July demonstration will be at MacBeath in Salt Lake. I will try for the third time...to do a demonstration on turning a platter with a unique “feature”. If you feel the need to miss one of our meeting...this is probably it.

Our third Thursday, training was on turning, texturing and coloring tops. We also showed various does and don't on cutting, parting and finishing. A number of attendees got to do some “hands-on” and perfect their cutting techniques. It was another very productive meeting for those in attendance.

Dave Bouwhuis was unable to do our June training due to a family obligation...so he has rescheduled to teach us how to make small boxes with lids...for July. These training sessions are all held at Woodcraft in Fort Union.

Remember the annual dues start July 1st. Please pay them quickly so we can worry about more important and fun things for the rest of the year.

Our club had the privilege of sharing and showing some of our talents at the First Annual Heritage Festival in Brigham City on the 19th of June. We were represented by Daryl Robbins, Joe Wagner and myself. It was a lot of fun, the people were great and the weather was perfect. There was a lot of interest in what we were doing and a lot of questions answered. If Blaine has room...I have included a few photos.

Thanks for all the support and assistance that was provided by Kip Christiansen, Dale Nish and a number of the club member for another outstanding BYU Symposium. We are getting the photo's together and into Dick Stucki (who put in eight hours shooting photo's in the “Instant Gallery”) so he can put together another “club CD” to sell.

Again thanks for all your assistance the last year in helping our club to be a beneficial and successful organization.

2003 Symposium CD-Rom

Other Symposium Compact Disks Available
1999, 2000, 2001, 2002, 2003

Unable to attend the Utah Woodturning Symposium at BYU? **Take heart!** The Club has produced a CD-Rom again this year that covers almost every aspect of the event. Video clips as well as photos of virtually every piece in the instant gallery. There is even freeware picture viewing software on the disk for you to use.

The CD is **compatible with PC and Mac**.
\$35.00 includes packaging and shipping.

If you would like to buy a CD at the club meeting you can take 10% off since we don't have to ship it (\$31.50). Call Bob Carter and let him know to bring one for you.
